Components

General Setup

ORIGINwater

Control Panel

Cartridge life indicator:

Press the button to activate the green indicator of cartridge life and hold for 5 seconds. If any of the cartridges are depleted, the corresponding indicators will turn red.

Reset cartridge life indicator:

After replacing cartridges, please press the corresponding button and hold for 3 seconds to reset the cartridge life indicator (turn it back to green with beeping sound).

NB: Cartridge lives are subject to change in relation to the quality and volume of inlet water.

Technical Data

Name: Undersink Water Purifier

Model: U608AU

Min Working Pressure: 100KPa

Min Working Temperature: 4 C

Min Water Intake Temperature: 5 C

Flow: 1.5L/min

Product Type: OW—UF—07

Water Supply: Tap Water

Max Working Pressure: 700KPa

Max Working Temperature: 40 C

Max Water Intake Temperature: 38 C

Functions

Caution

- ※ Before use, please read the following information carefully.
- ※ Please contact our technicians for any problems.

Please do not leave the machine in subzero environments as this may cause irreparable damage.

Please do not leave the machine in high temperature environments as this may result in deformation, breakdown and leakage.

Every day, before use, please flush water through the tap for at least 10 seconds.

If the machine is idle for more than 2 days, please flush water through the tap for at least 20 seconds before use.

Hot water (>40°C) is not acceptable. High temperature water may result in deformation, breakdown and leakage of the machine.

When the flow rate of purified water decreases, please wash the surface of the MF and UF cartridges.

The page features a decorative graphic in the bottom right corner consisting of several overlapping rectangular shapes in various shades of blue. The largest shape is a solid blue rectangle. To its left and slightly above, there is a lighter blue rectangle. To its right and slightly above, there is a medium blue rectangle. The overall effect is a modern, layered geometric design.
